

**COLLEZIONE IX**

Dai viaggi nel tempo e nello spazio, affiorano ricordi legati all'Oriente,  
ai suoi tessuti sontuosi, alla matericità della seta e del cachemire.  
Torna l'atmosfera degli interni anni Cinquanta, con soggetti e colori reinterpretati  
da una tavolozza di sapore vintage.

Nell'immaginario del viaggiatore il nuovo astrattismo dell'arte contemporanea,  
incontrato nelle gallerie di tendenza, invade con discrezione le sue stanze, con  
composizioni  
di linee e segni geometrici declinate in versioni inedite.

Nella memoria, le pareti s'illuminano di immagini iridescenti, di sfumature fluide e di  
bagliori improvvisi, scomposte e disegnate dalla luce di un prisma. O si animano di  
presenze gentili,  
piante, foglie e fiori, che rimandano alla natura e ai giardini d'artista.  
Superfici che parlano d'altrove.
